CG: two podiums in South America!!!

It's in Santos (Brazil) that Cedric decided to start 2009 season for the annual race "Downhill Urbano Santos". After having already won in 2007, he came back to ride with the best Brazilian riders who know perfectly this urban event. The race required lots of technique, because of the rain and of the abrupt steps that were another difficulty for the material; CG broke one wheel of his SUPREME DH during Saturday race where he finished third. Finally he could take part of Sunday race (with the same weather conditions) and finished on the second step of the podium!

Now it's time for some training days before flying to Chile where many fans wait to encourage CG for a new urban downhill in Valparaiso.
